(2023)

Advanced Diploma in Software Engineering (ADSE)

Aptech
(2024 - Present) | 3rd Semester

WORK EXPERIENCE

Freelance Web Developer

Remote | Apr 2025 – Present

PROFILE

I'm a passionate Web Development student at Aptech Pakistan, currently in my 3rd semester of ADSE. I have hands-on experience in both frontend and backend development, and have completed live projects for real clients – including a portfolio site for a creative agency and a full redesign for a U.S.-based business.

I've also created my own functional web apps like a Hospital Management System using PHP and MySQL. With strong fundamentals in HTML, CSS, JS, and Laravel, I'm actively seeking frontend developer roles or internships where I can contribute to real-world solutions and continue to grow professionally.

PROJECTS

Live Website Redesign (LA Patches) 2025 - May
(U.S. Client)

- HTML, CSS, JavaScript – Redesigned and improved the UI/UX of an existing client website.

Agency Portfolio Website (Techignits) 2025 - Jul
(Client Project)

- HTML, CSS, JavaScript, PHP – Building a modern portfolio site for a creative agency client.

Frontend Project (QuickSnacks) 2024
(Personal Project)

- HTML, CSS, JavaScript, PHP – Building a modern portfolio site for a creative agency client.
